## The Vision Dinner

We believe many churches in Canada are ripe for revival and our country is in desperate need for a great spiritual awakening from God. It is our desire to come alongside your church family to determine whether it makes sense for you to engage in any of our ministry initiatives. Whatever the answer, we want to break bread with you, share with you, bless and encourage you.

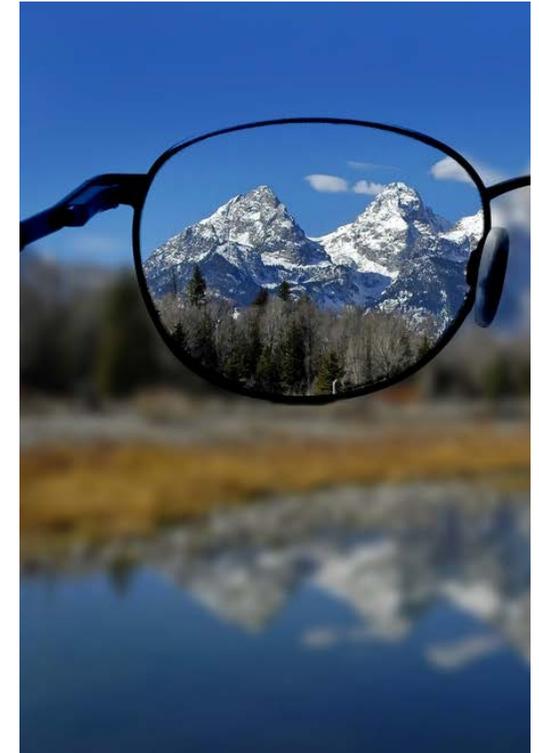

**We will bring a qualified, proven ministry team to facilitate a Vision Dinner in your church. You provide the meal and we host the entire event. The whole affair takes a couple of hours. We will eat, hold a panel discussion, share a revival message and pray together.**

*You will seek me and find me, when you seek me with all your heart.*

## Life Action Canada is...

*Our ministry philosophy is based on a powerful spiritual principle—that an encounter with God is the starting place for lasting change.*

Life Action Canada helps believers experience the power and presence of God. Our events lead people through a process of applying **timeless biblical principles** like honesty, brokenness, and transparency to the practical issues of modern life.

## Revival is...

An expression that gets to the heart of the matter, the place where real change actually happens. In revival, God surprises us with His presence. And when God pours out His power on individuals, churches, and communities, everything changes. The result is a total makeover of the heart that revitalizes individuals, families, and churches.

***When God pours out His power on individuals, churches, and communities, everything changes.***

Nations have been dramatically shaped by wide-scale revivals in the past, when thousands of Christians have gotten right with God and many people have been spiritually awakened to their need for faith in Christ. This always starts when believers walk through a practical, biblical process of revitalizing their relationship with God and reconciling their relationships with each other, helping them to become agents of transformation in their communities while uniting to seek God for an outpouring of the Holy Spirit.

Revival. It's just an expression, but it represents God's desire for your life.

***Life Action Canada helps churches and individual believers seek God for real spiritual change.***

### Testimonies from Life Action Canada Events

*God spoke to me about learning to listen to/for Him better. I need to make time to step away from the daily grind and posture myself to hear from God. He loves to speak to me!*

~~~~~

*The sense of Holy Spirit's power came on me in His equipping and resourceful way of increasing spiritual resilience. I left in a far better state than what I arrived both spiritually and physically.*

~~~~~

*I was wonderfully blessed by the way that praying with others connects hearts so deeply. I was refreshed, convicted and encouraged. I came away challenged that I am most fully "standing on guard" for Canada down on my knees.*
